February 9, 2021

Secretary's Report :

All pending CISs/Letters completed with the exception of 11/10/2020
agenda items 14.2 and 14.3, which await contact information

Zone 3 Report:

-Filming has resumed at 3407 Grand View and continues to create parking, noise
and light disturbances to the immediate neighbors. The latest filming failed to
abide by all of the concessions agreed to between the owner of the property
and HillTop Neighbors Association in 2020, and covered the course of 3 days.
After having contacted every agency to which this issue applies, the
current consensus is for neighbors to contact the City Attorney and report the
issues with each filming, which presents the possibility that action may be taken
by same. Will also be meeting with Vishesh Anand regarding any actions CD11
may wish to take.

-Hilltop Neighbors is working to resolve the inability of residents, during the
Covid restrictions, of physically contacting Pacific Division at its headquarters.
Will be installing a RING system at the entrance.

-A tent with bedding inside was discovered in a parkway tree opposite the
Ballfields on Grand View Blvd. Subsequent investigation revealed that this tent
had been stolen from the yard of a nearby home. LAPD was called but no
one has yet been connected with the theft or the "re-purposing" of the tent.

Community Plan:

In response to an inquiry, have received a communication from Dept of City
Planning (DCP), that they are still processing the voluminous comments received
on their July 2020 Draft Palms-Mar Vista-Del Rey Plan. They will be issuing a
Summary of Comments and making "refinements" to the plan in the next few
months. The Environmental Impact Report process will also be rolled out in the
next few months, with a Scoping meeting to take place sometime during the early
part of the year.

DCP attended the Feb 6,2021 WRAC LUPC meeting and discussed their goals and processes for the various Westside Community Plans, as well as taking Q&A. No specific Comments/changes to the Draft plan were presented.
