VIDEO SURVEILLANCE DATA COLLECTION PROJECT

**INFRARED IR BULLET
VIDEO SURVEILLANCE CAMERA**

The Pacific LAPD Community Police Advisory Board (CPAB) is committed to partnering with the Los Angeles Police Department to do all that we can to make our communities as safe as possible.

Video surveillance systems are becoming more common as a tool to improve the safety of our businesses, homes and communities. The cost of these systems has become more affordable and the capabilities greater making it an investment many are choosing to use.

The goal of this project is to determine the presence of these tools in our communities and share that information with the Pacific Los Angeles Police Department so they can utilize this data in investigating crimes in our community.

Step 1— Safety first.

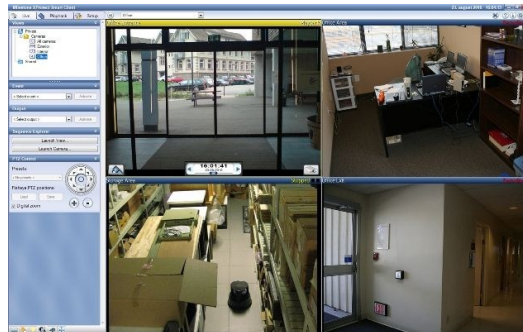

In an emergency call 911. To contact the police for non-emergency matters call 1-877. ASK-LAPD (1.877.284.7328). To request other city services like graffiti removal, pot hole and street light repairs call 311.

Step 2—Register your video surveillance system

Complete the enclosed information sheet or download it from www.pacificbeat.org and either email to _____@lapd.lacity.org or fax it to 1 310.482.6339.

Step 3—Keep you and your information up to date.

Be sure to remember to update us if your contact information changes or you add or upgrade your video surveillance system.
