Would like to see more greenery- especially trees. More art would be nice too. Can you also work on Gateway Blvd. and make that nicer? It's the gateway (no pun intended) to Mar Vista/La from Santa Monica and needs to be spruced up!

Hi Kathryn -

Having worked with neighbors who live close to downtown Mar Vista, in the "flats", as we do, I think we have a good sense of what is needed. While art and seating would be lovely, with the current homeless encampments, furniture would not work and art would likely be defaced, as all of our murals have been. What could be useful would be bike racks in the parkways outside Bowlero and Yum Yum donuts (on Grand View). This has already been suggested to the businesses and Bowlero likes the idea. This would be especially useful for the Farmers Market. Landscaping in the parkways around these businesses would also be useful and good for the environment and beautiful.

Seems like a great project, makes my family excited!

But first and for most, to comfortably walk in that area, all the rubbish, tents and homelessness has to be addressed.

It makes us feel unsafe, unheard and feel like the city does not care about people who pay high rent prices to live in Mar Vista. Even when we go to the farmers market, there are tents surrounding Grand View Blvd., garbage piles on Pacific ave.

My family urges the city to address this. Thank you.

I am not happy with the Road Diet. Bikes and scooters still come from all directions and create an unsafe situation. I try to avoid shopping in this area now and go to the Marina for most of my needs. If you want to make Downtown MV more beautiful get ride of the encampments and the clean up the trash.

Clean up the neighborhood via housing for homeless and enforcement for drug-related crimes, property theft, etc. There is no way we should be moving forward with this project when the real issue hasn't been addressed.

Get rid of the homeless people! Nobody wants to walk around Mar Vista with all the homeless camped out on the sidewalks.

Clean up the tents and the trash that is allowed to pile up from individuals who are unhoused. There is no need to install art when we have tents and trash including hazardous waste in clusters of downtown Mar Vista.

Beautification starts with no more multi family, apartments or large business buildings. It is about finding parking places, not having street people stealing from your home and or peeing in your plants. It is about community, respect and gratitude. It is about feeling safe where you live, work and when you walk on the streets... People will make their homes beautiful if they feel love from their neighbors and they don't have to lock everything and close up their spaces.

I'd love to see wider sidewalks and more plants. The Great Streets project was a good start, but there could be so much more! Especially now that indoor dining is going to be restricted, we could really make downtown mar vista a destination instead of just a thoroughfare for non community members.

Additional ideas would be bike lanes down Grandview (as it's extremely wide currently but only two lanes -- plenty of room for bike lanes which could encourage students riding with their parents to Grandview Elementary).

Putting the cart before the horse. Until you address the homeless issue and clean up the encampments and all the waste associated with them...your ideas are an insult to those of us who live and work in Mar Vista. Shame.

I heard the comment that "we can do two things at once" but in this case, it's inappropriate to move forward on "beautification" when downtown Mar Vista is haven for the homeless. Needles, human waste, blocked sidewalks, aggressive behavior...PLEASE...we don't need to dress up a disaster, we need to take care of the core problem first. PLEASE

Nothing will be accomplished until the vagrant encampments are eradicated. No one feels safe going anywhere near public spaces in Mar Vista due to rampant criminal activities, menacing drug users, and filth.

The only "beautification project" necessary is to clean up the vagrant encampments and their associated criminal activities, drug use, filth, and menacing individuals. If that mess is cleaned up, private business will be more than happy to invest in the area. As of now, it's a third world cesspool where no one dares venture.

This process needed to be more transparent and longer, and take in into consideration more than just aesthetics. I wish I would have been able to not select any preference of seating for the Downtown Mar Vista project but I was forced to select something after making my first selection of no seating. I don't want any sidewalk space taken away because we are in the middle of a pandemic and already sidewalks are too narrow for people going opposite ways to pass by each other with the tents all along Venice Boulevard. Murals are nice and all but the main way to beautify Downtown Mar Vista would be to clean up the homeless encampments and restore Venice Boulevard traffic lanes so people can actually park and businesses will come back!

Basic beautification is needed before funds are spent on installations, murals, etc. Basic beautification involves spending city funds on maintaining cleanliness, perhaps by employing staff to walk the length of Venice Bl in Mar Vista & adjacent commercial arteries, cleaning the walkways. Any time I've walked the sidewalks of DTMV in the past year, I've seen the walkways littered human bodily waste (disease & slipping hazard), drug paraphernalia (dangerous for any small child accompanying a parent who has no choice but to walk), large & small discarded articles (clothing, shoes, small appliances), significant food waste, and other trash. Large letter graffiti that has taken over walls, dumpsters, & murals also needs to be cleaned up.

The first step to beautification of Mar Vista is to spend this money on getting the homeless off of our streets. Find housing and services for them. Once that is established, they must go.
